

MY PRIVATE. DO NOT PEAK!

For me, privacy is when others do not read what I write. For me, privacy is very important.

Because it deals with my problem. I am worried when others read what I write. My experiences with getting respect are good. I absolutely do not read what others write and I am not interested in what others write. Regarding my own privacy, I mind if others enter the bathroom, toilet or room without knocking. Regarding other people's privacy I mind if they do not respond when I knock to their door or when they shout when I open the door. What we can do about that is to respect the rules of polite behaviour and respect other people's wishes for privacy. Uncle Zdravko, aunt Sanja, aunt Višnja, aunt Anamarija, uncle Zoran, SOS-mother Đurđica, aunt Snježana i aunt Zrinka are the people that I trust that they will not give to anyone else to read what I wrote as my own privacy.
